HANDOVER OF DONATED LAPTOPS

– PIASE D/A JUNIOR HIGH SCHOOL, ASHANTI REGION – GHANA –W/A

Date: 02 March 2026

Location: Piase, Ashanti Region

Introduction

Chances Africa Organisation e.V. successfully carried out the handover of donated laptops to Piase D/A Junior High School. This initiative is part of the organization's ongoing commitment to promoting digital education and improving access to technology in schools. The aim is to provide both male and female students with better learning opportunities and to strengthen their digital skills.

This initiative was made possible through the generous support of Lufthansa Industry Solutions GmbH (LHIND), whose contribution enabled the procurement and delivery of the laptops to the school.

The brief ceremony took place on the school premises and was attended by the headmaster, the Regional Director of Education, a representative of the Parent-Teacher Association (PTA), a representative of the community leadership, and members of Chances Africa Organisation e.V.

Arrival

The event began with a welcome speech by the headmaster, who expressed his gratitude to Chances Africa Organisation e.V. and Lufthansa Industry Solutions GmbH. He emphasized that the laptops would be a valuable support for teaching and would provide students with access to digital learning resources.

Arrival of Guests / Opening of the Event

Handover of the Laptop Donation

A representative of Chances Africa Organisation e.V., Mr. Stephen Ampofo Twumasi, officially presented the donated laptops to the school. During the presentation, it was

highlighted that digital tools play a central role in modern education and help teachers better prepare students for an increasingly digital world.

Special recognition was given to Lufthansa Industry Solutions GmbH, whose support made this important initiative possible.

Official Handover of the Laptops

Contributions from Participants

In his speech, the Regional Director of Education praised the initiative and thanked Lufthansa Industry Solutions GmbH and Chances Africa Organisation e.V. for their support of the education sector. He emphasized that many schools in the region continue to face significant shortages of teaching and learning materials.

He also pointed out that, in addition to laptops, further resources such as projectors, whiteboards, and other digital teaching aids are urgently needed to improve teaching and provide better learning conditions for students.

The representative of the Parent-Teacher Association and the representative of the community leadership also expressed their appreciation for this support and encouraged continued collaboration between organizations, communities, and schools.

Official Handover and Acceptance

The headmaster officially accepted the laptops on behalf of the school and assured all parties involved that the devices would be carefully managed and effectively used to improve teaching and learning for students.

Signing the handover

Group Photo

The ceremony concluded with a group photo featuring representatives of the school management, the regional education directorate, the PTA, the community leadership, and Chances Africa Organisation e.V.

Conclusion

The laptop donation represents an important step toward strengthening digital education at Piase D/A Junior High School. Chances Africa Organisation e.V. expresses its sincere gratitude to Lufthansa Industry Solutions GmbH (LHIND), as this initiative would not have been possible without its support.

In view of the growing need for technological resources in schools, the organization and local education authorities call for further support and donations, particularly in the form of laptops, projectors, whiteboards, and other teaching materials. Such contributions can benefit many more schools that are currently in urgent need of similar support in order to provide better educational opportunities for students.
